INTRODUCTION

CompTIA Server+ validates your skills with the most commonly used server and storage systems in the IT industry. This certification demonstrates an impressive knowledge base that narrows the skills gap and provides the hands-on experience that businesses require.

The CompTIA Server+ course builds on your existing professional experience with personal computer hardware support to present the next tier of skills and concepts that you will use on the job when administering any type of network server. If your job duties include server troubleshooting, installation, or maintenance, or if you are preparing for any type of network server-related career, it provides the primary knowledge and skills you will require to be successful.

DELIVERY METHOD

Our courses have flexible delivery options:
- In-person classroom training at the Impactful training facilities
  - Johannesburg, Durban, Cape Town
- Virtual instructor-led training
- Nationally: on-site at the client

INTENDED AUDIENCE

This course is designed for IT professionals such as PC, desktop, and help desk technicians who have experience supporting PC hardware who wish to make the transition to become server hardware and support specialists. This course is also designed for existing server managers who are preparing to take the CompTIA Server+ Exam SK0-005.

PREREQUISITES

Before attending the Server+ course delegates should have 18 to 24 months of hands-on experience with installation, configuration, diagnosis, and troubleshooting of PC hardware and network operating system issues. It is also recommended that delegates have the CompTIA A+ certification or the equivalent training and experience.

Delegates can obtain this level of skills and knowledge by taking the following CompTIA courses:
- CompTIA A+
- CompTIA Network+

COURSE OBJECTIVES

After completing this course, students will be able to:
- Manage server hardware
- Install server hardware and operating systems
- Configure networking hardware and protocols
- Create a virtual server environment
- Perform basic server configuration task
- Administer servers
- Implement server storage solutions
- Secure the server
- Plan and test disaster recovery
- Troubleshoot server issues

COURSE CONTENT

Lesson1: Managing Server Hardware
Lesson2: Installing a Server
Lesson 3: Configuring Networking
Lesson4: Creating a Virtual Environment
Lesson5: Performing Basic Server Configuration
Lesson6: Administering the Server
Lesson7: Implementing Storage Solutions
Lesson8: Securing the Server
Lesson 9: Planning and Testing Disaster Recovery
Lesson10: Troubleshooting Server Issues

ASSOCIATED CERTIFICATION AND EXAM

This course will prepare delegates to write the CompTIA Server+ (SK0-005) exam.
